RE: Offset System for Greenhouse Gases

Dear Ms. Hull:

Thank you for the opportunity to comment on the Offset System for Greenhouse Gases Consultation paper. Furthermore, I wish to thank you for conducting a nation-wide consultation system on Offsets and for inviting all of our Coalition members to participate where they could. The Clean Air Renewable Energy Coalition applauds the Federal government's efforts in working with stakeholders in the design of the Offset System. As you are aware, **we support the inclusion of Renewable and Alternative energy as part of the Offset System.**

There are many viewpoints on design details relating to the Offset System. To that end, some of the individual members of the Coalition (membership names shown below) will be sending their own submissions to you on this subject. Thank you for your efforts to date.

Sincerely yours

A handwritten signature in black ink, appearing to read "Mark S. Rudolph", with a long horizontal line extending to the right.

Mark S. Rudolph
Clean Air Renewable Energy Coalition Coordinator
